#### NEW INTRODUCTION

To those interested in my new yellow pompon, BRASS BUTTON; it was certified at Storrs, Connecticut, the past season. It will be grown this year by the RUSCH-MOHR DAHLIA GARDENS, Rockville Center, L. I., New York. This firm will exhibit the blooms in the fall flower shows. Watch for it.

Other dahlias are grown in small quantities. Tubers may be supplied from many varieties not listed. Make known your wants.

## SPECIAL VALUE COLLECTIONS

My selection from surplus stock. Each collection \$1.00 postpaid, worth much more at list prices. Every tuber labeled. All three collections \$2.75.

COLLECTION A—10 varieties large dahlias.

COLLECTION B—12 Varieties pompon dahlias

COLLECTION C—10 Varieties miniature dahlias.

## GLADIOLUS COLLECTION

Assortment of large flowering gladioli varieties, in many lovely colors, blooming size bulbs, not labeled. Treated for prevention of thrip -----40 for 50c; 100 for \$1.00.

## PLANTING

Plant dahlias May 1st to June 5th, 2 to 3 feet apart. Lay tuber horizontally, sprout up, in hole 6 inches deep. (Never stand a tuber on end.) Cover with 3 inches of soil; later, as the plant grows, fill in the remaining space. If ground is poor, dig deeper, and put rich top soil in bottom of hole under tuber. For large blooms, allow but one to a branch, removing extra buds while very small. Pompons may be planted closer together and need no disbudding. Remove all fading flowers. Thus cared for they bloom freely until frost.

## DAHLIA LABELS AND PENCILS

DAHLIA LABELS, smooth wood, 3½x 5-8 inch, painted and copper wired. Ordered with tubers, 40c per 100. Label pencil 10c. Without tubers; labels 50c per 100, pencil 15cts.
